

An Example Survey

Jayme Woogerd

November 30, 2014

This Pollstr program demonstrates key features, such as bound variables, sections, and skip logic. Enjoy!

1 Would You Rather?

- 1.1 Would you rather be stuck in a closure with Ming Chow or Norman Ramsey?

☐ "Have anyone ever heard of a thing called..." (*skip to question 1.3*) (1)

☐ "I guess I misjudged how long that homework would take." (2)

- 1.2 Would you rather have to wait for everything in real life to compile or have an interpreter follow your around all the time, throwing errors at you?

☐ Compile (1)

☐ Interpreter (2)

- 1.3 Would you rather only be able to speak in Perl or only be able to talk when others are talking about Perl?

☐ Speak in Perl (1)

☐ Talk when others are talking about Perl (2)

- 1.4 Would you rather be a garbage collector or a nomad monad?

☐ Garbage collector! (1)

☐ Nomad monad! (2)
